Framework Guidance

We work across numerous frameworks and can guide you through the process to help you understand your options.

Focus on Quality:

Rigorous processes to assess skills, cultural fit and long-term potential to secure appointees who drive success and excel in public service roles.

Comprehensive Market Research
Thorough local and international talent mapping and competitor analysis, giving you the insights you need to gain a competitive edge.

End-to-End Management
We handle the entire journey, from initial search to candidate onboarding. Both candidates and hiring managers get an exceptional experience.

Enhanced Candidate Experience:
We ensure clear communication, timely feedback and respect—upholding your organisation's reputation.

Dedicated to Diversity
We champion equality and inclusion, leveraging our diverse networks and data insights. We collaborate with you to eliminate barriers and ensure fair practices throughout the recruitment process.

The Apex Approach

1. Building the Brief:

Our professional search team meets with your hiring panel and HR department to understand the role, selection criteria, timeline and desired outcomes.

2. Setting the Search Strategy:

After building a role profile, we work with you to create an inclusive job description and an advertising and search strategy that showcases your EVP and values.

3. Mapping Available Talent:

We conduct a thorough analysis of potential talent sources, including private and public sector organisations and our extensive networks, to provide insights into the available talent pool.

4. Presenting a Long List:

We present a long list of potential candidates for hiring panel review, ensuring a broad representation and adherence to equal opportunities principles.

5. Refining to a Shortlist:

We conduct initial screenings, narrowing down the field to the agreed number of candidates. The hiring panel receives a detailed brief for each candidate addressing the established criteria.

6. Designing Fair Assessments:

Our team of occupational psychologists can be engaged to develop objective, role-specific assessments that support fair and open competition.

7. Supporting the Selection Process:

Our team arranges interviews for shortlisted candidates according to your process.

8. Managing the Offer Stage:

Our professional search team coordinates the formal offer and employment contract, managing the process until the candidate has committed to the role. Plus, we maintain contact with your new appointee until they start, ensuring a standout experience with your organisation.
