# Technology Diagnostic

 **AMPLIFIERS**<sup>™</sup>  
BY PEOPLESOUT

## Optimize Your Talent Tech Investment with a Technology Diagnostic

Your recruitment technology should be working for you—not against you. PeopleScout's Technology Diagnostic cuts through the complexity to analyze your current talent tech stack to identify inefficiencies, streamline workflows and maximize your ROI. Whether you're integrating AI, enhancing analytics or optimizing processes, our experts provide a clear, actionable roadmap that transforms disconnected tools into a talent tech ecosystem designed to meet your unique needs.

### How it Works

**Vendor-Agnostic Evaluation:**

We assess your current tech stack—including ATS, CRM and AI tools—to identify gaps, inefficiencies and opportunities for optimization.

**Efficiency Audit:**

Our experts analyze system performance, reporting capabilities and workflow automation to uncover areas for improvement within your tech stack.

**RFP Support:**

We assist with vendor research, information gathering, proposal alignment and pricing analysis to help you make informed technology investments.

**Technology Selection and Implementation:**

From requirements gathering to system configuration, we ensure smooth integration of new tech platforms with minimal disruption.

**Future-State Optimization Analysis:**

We provide a roadmap for long-term tech evolution, including data migration strategies, system customization and product training for your team.

# Value

- ✓ **Maximized ROI:**  
Ensure every dollar spent on talent technology drives efficiency and results, transforming investment into impact.
- ✓ **Enhanced User Experience:**  
Optimize workflows and streamline processes for recruiters, hiring managers and candidates alike.
- ✓ **Faster Implementation, Less Disruption:**  
Our experts help you navigate the complexities of platform transitions or new tool integrations to expedite your time to value.
- ✓ **Custom Roadmaps for Success:**  
Leverage actionable insights and tailored recommendations to meet your organization's unique talent acquisition needs.
- ✓ **Data-Driven Hiring Decisions:**  
Leverage the latest AI, analytics and business intelligence tools to enhance recruitment efficiency.

## What People Are Saying

"The expertise from the PeopleScout team created a big lift with little lead time and a tight timeline for deliverables. I appreciate their thoughts, partnership and flexibility while we worked to align our approach with HR and our leadership."
